Continues the 13th 14th 20th 21st

Your

Beginner SCUBA Class with Dry suit

A warm DRY SUIT with training

At Evergreen Dive Service we do not require our students to enroll in additional training programs before they are able to **dive warm and dry**.

We offer the ultimate training experience by including dry suit instruction with ALL beginner SCUBA programs. This uniquely qualifies our students to dive in both cold-water with dry suits and in warmer water using wetsuits.

When you purchase your 5 personal SCUBA articles from us, we offer this course at an amazingly low **\$349.00**

Beginner Class E-Learning

The e-Learning package allows you to reduce class time by completing the knowledge development program online prior to joining our instructors for in-water training. When you purchase your personal SCUBA gear from us, this course is **\$319.00**

Visit www.padi.com/elearning-scuba-registration to register for the E-Learning Program.

Select Evergreen Dive Service and begin your SCUBA class today!!

*PADI E-Learning Fee not included

Adventure

Small class sizes

At Evergreen Dive Service the safety and enjoyment of our students is our highest priority. With **both an instructor and assistant for every four students**, our standard group class offers a ratio typically seen only in private training programs.

Open Water Referral

When you complete your classroom and pool dives, Evergreen Dive Service processes your paperwork, takes your picture, and sends you to a PADI dive center in the area where you are traveling. The big advantage of our referral program is that you will not need to spend your entire vacation learning scuba. Instead you can spend it **diving or relaxing on the beach!** When purchasing your mask, fins and snorkel from us, all of this is just **\$249.00!**
